Emails: aaburns@phhp.ufl.edu

Tel: (352) 273 6565

TEACHING ASSISTANT: Dr. Indira Samarawickrema MBBS, MSc., MD.

Email: indiras@phhp.ufl.edu

Tel: (352)273 6013

Office hours: Wednesdays 1:30-3:30 PM by appointment

COURSE PROSPECTUS:

The course is designed to provide students an overview to develop public health programs and interventions to address the most important health issues affecting our communities at local, national, and international levels. Students will learn the process of public health programming including assessment, design, planning, implementations and evaluation. The course will also include an overview of effective public health interventions using the socio-ecologic framework (individual/behavioral, environmental/social/community and policy) as a foundation to explore various levels of interventions.

COURSE OBJECTIVES:

Upon completion of this course, students will:

1. Explain the role of environmental (social and physical) and behavioral interventions for improving public health
2. Recognize and describe at least five examples of effective Public Health interventions at community, policy, organizational, and international level.
3. Describe the purpose of the Public Health program, its process from the assessment, design, planning, implementation, and evaluation
4. Elaborate Public health program goals, and objectives according with the target groups needs.
5. Apply behavioral and social science and health education theory and experience to develop a Public Health Program and Public Health Interventions.
6. To develop negotiation skills to persuade key stakeholders on public health program decisions.

COURSE TOPIC OUTLINE:

1. **What are Health Education, Health Promotion and Program Planning?**
2. **Program Planning Models**
3. **Assessing Needs of the Priority Population**
4. **Public Health Interventions**

5. **Identification and Allocation of Resources for Public Health Programs**
6. **Marketing**
7. **Implementing a Public Health Program**
8. **Evaluation Public Health Programs**

READING/TEXT:

Required:

1- Planning, Implementing, and Evaluating Health Promotion Programs: A Primer (5th Edition) (Health & Kinesiology), by James F. McKenzie (Author), Brad L. Neiger (Author), Rosemary Thackeray (Author). **Publisher:** Benjamin Cummings; 5th edition (March 2, 2008)

ISBN-10: 032149511X

ISBN-13: 978-0321495112

Course Evaluation:

The course will be conducted as a seminar that features discussion, attendance and active participation. The professor will introduce topics for each class and students are expected to engage in debate and discussion of the readings. In the first class, each student will be assigned readings to present a summary, answer review questions and perform the activities assigned in each reviewed chapter of the textbook. Students are also expected to make a final project and power point presentation on a Public Health Program Planning and Evaluation proposal that they design during the term.

Student presentation of assigned reading:	25%
Written Final Paper:	30%
Power point presentation of final project:	30%
Class participation:	15%

Instructional Methods:

Student presentation (25%): Using the reading assignments, each student will lead the second part of the class beginning on September 15th. Each student will be responsible for presenting the summary of class, answer the review questions, and implementing the activities assigned in each chapter of the textbook used in this course. You are advised to include power point for your summary and answer questions; the implementation of activities will done at your own initiative.

Power point presentation of the final project (30%)

Each student will present a power point presentation of their final project.

Students will be required to complete an evaluation for all student presentations (except their own). Final Project presentation grades will be based on: 1. Preparation of project. 2. Presentation 3. Effectiveness in leading class discussion. 4. Peer evaluation of presentation

Written Final Paper (30%):

This project will be a document of 8-10 pages on a Public Health Program Planning and Evaluation proposal that each student design during the term. DUE DATE: December 15th. (OUTLINE DUE DATE: September 22nd). The following are suggested topics:

1. Cervical cancer screening
2. Healthy aging
3. Mental health
4. Physical activity
5. Multicultural health
6. Reduction of Health Disparities

7. Safety promotion and injury prevention
8. Tobacco control
9. Workplace health

Class participation (15%):

Participation is based on daily class attendance and engagement in daily discussions of topics, activities and projects.

The grading system for this course will be the standard scale below:

90%-100%= A
85%-89%= B+
80%-84%= B
75%-79%= C+
70%-74%= C
65%-69%= D+
60%-64%= D
Below 60%=F

Policy on make-up work/exams:

Students are allowed to make up work only if they missed as a result of illness or other unanticipated circumstances warranting a medical excuse, consistent with College policy. You must notify the instructor in advance if you will miss an exam or project deadline. Documentation from a health care provider is required upon you return to class. Project extensions requested for medical reasons must be negotiated at the time of illness.

Academic Integrity:

Each student is bound by the academic honesty guidelines of the University and the Code of Student Conduct, printed in the Student Guide and published on the University website. The Honor Code states: "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity." Cheating, plagiarism, and other academic dishonesty or conduct violations in any form is unacceptable and inexcusable behavior and can result in dismissal from the College and/or University.

Class Attendance:

You are responsible for all information presented in class. As indicated above, class attendance and participation are important components of the grade. All students are expected to participate and evaluate colleagues in classes.

Accommodations for students with disabilities:

If you require academic accommodation, you must first register with the Dean of Students' Office. The Dean of Students' Office will provide you with documentation that you must then provide to me as the faculty member for this course at the time you request the accommodation. The College is committed to providing reasonable accommodations to assist students in their coursework.
